A

Abutment, overdenture, tooth contour, influence of, on periodontium: Preliminary report (Graser and Caton), 173
preparations, fixed partial denture, use of acrylic resin coping to align (Christensen and Whitsitt) (Tips), 587
tooth movement, effect of splinting on (Aydinlik et al), 477
Accuracy and repeatability of new procedure for temporomandibular joint laminagraphy (Preti et al), 715
of cast restorations prior to cementation, utilization of elastomeric materials to evaluate (Rissin and Wetreich) (Tips), 585
Acid-etched provisional fixed partial denture, immediate (Glickman) (Tips), 137
Acoustic study of vowels produced with and without dentures: Active versus passive adaptation (Tobey and Finger), 314
Acrylic resin, boilable, porosity in (Firtell and Harman), 133
coping, use of, to align fixed partial denture abutment preparations (Christensen and Whitsitt) (Tips), 587
exposed to chlorhexidine or tannic acid, iron discoloration of: Model study (Nordbö et al), 126
orthodontic prostheses, polymerization of (Furnish et al), 276
Adaptation, active versus passive: Acoustic study of vowels produced with and without dentures (Tobey and Finger), 314
marginal, of extracoronal restorations during cementation, evaluation of (Pascoe), 657
glass-ionomer cements (Fuks et al), 356
Adjustment, occlusal, in patients with residual or recurrent signs of mandibular dysfunction (Magnusson and Carlsson), 706
Aged, nutritional problems of (Ramsey), 16
Aging men, healthy, impact of complete dentures and impaired natural dentition on masticatory performance and food choice in (Wayler and Chauncey), 427
Alloys, nonprecious, for use in fixed prosthodontics: Literature review (Kelly and Rose), 363
Amalgam repair—Clinical technique (Cowan), 49
restorations, burnished: Two-year clinical evaluation (May et al), 193
exhaled mercury following removal and insertion of (Reinhardt et al), 652
Amelogenesis imperfecta: Genetics, classification, and treatment (DeSort), 786
Anatomic and statistical study to determine inclination of condylar long axis (Preti et al), 572
Anesthesia, intraligamentary: Clinical study (Kaufman et al), 337
Angle of articular eminence, effects of, on anterior disk displacement (Atkinson and Bates), 554
Angulation loading effects on cast-gold endodontic posts: Photoelastic stress analysis (Mattison and von Fraunhofer), 636
Anterior artificial teeth, facial characterization of (Donahue), 577
determinants, predictable (Clements), 40
disk displacement, effects of angle of articular eminence on (Atkinson and Bates), 554
guidance: Its effect on electromyographic activity of temporal and masseter muscles (Williamson and Lundquist), 816
Appendage muscle strength, effect of mandibular position on (Williams et al), 560
Articular eminence, effects of angle of, on anterior disk displacement (Atkinson and Bates), 554
Articulator(s), adjustable, clamp to support maxillary section of (Kidd and Ralph), 135
modification for maxillofacial prosthetics (Marunick and Ma), 685
Artificial teeth, anterior, facial characterization of (Donahue), 577
Atrophic edentulous mandibles, autogenous bone grafts for: Review of twenty patients (Curtis and Ware), 212
Attachment(s), intraoral nighttime feeding, for patients with glycogen storage disease, types I and III (LaVelle and Rhead), 687
Attachment(s)—cont'd
precision-type, retention and wear of (Stewart and Edwards), 28
Autogenous bone grafts for atrophic edentulous mandibles: Review of twenty patients (Curtis and Ware), 212
Axis, condylar long, anatomic and statistical study to determine inclination of (Preti et al), 572

Burns, electrical, of oral commissure (Reisberg et al), 71

C

Canals, divergent, cast dowel-core technique for multirooted teeth with (Ziebert and Johnson), 207
post preparation, drying, prior to cementation (Cameron) (Tips), 586
Cancer chemotherapy, use of interim protective prosthesis during (DePaola), 527
patient(s), myelosuppressed, isolation of pathogenic microorganisms from dentures and denture-soaking containers of (DePaola and Minah), 20
use in primary reconstruction of: Functional mandibular surgical stents (King et al), 217
Cast(s) circumferential and wire clasps for obturator retention (King and Martin), 799
clasps and wrought wire, comparison of flexibility of (Frank et al), 471
dowel-core technique for multirooted teeth with divergent canals (Ziebert and Johnson), 207
effect on surface detail of, when irreversible hydrocolloid was wetted before impression making (Morris et al), 328
-gold endodontic posts, angulation loading effects on: Photoelastic stress analysis (Mattison and von Fraunhofer), 636
gypsum, as potential source of microbial cross-contamination (Leung and Schonfeld), 210
maxillary complete denture, posterior palatal seal location and preparation on (Calomeni et al), 628
mounted, modified survey table for (Schmitt et al) (Tips), 861
remount, for occlusal correction (Khan and Morris) (Tips), 445
restorations prior to cementation, utilization of elastomeric materials to evaluate accuracy of (Rissin and Wetreich) (Tips), 585
removal of excess cement from (Jones) (Tips), 585
Casting(s), crown, mathematical treatise on fit of (Grajower and Lewinstein), 663
full coverage, effects of preparation relief and flow channels on seating, during cementation (Webb et al), 777
one-piece, spatial changes occurring in fixed partial dentures made as (Garlapo et al), 781
size and investment setting expansion, three factors affecting (Lacy et al), 52
Cavosurface bevels, enamel, finished with ultraspeed instruments (Barkmeier et al), 481

January, 1-148; February, 149-302; March, 303-456; April, 457-596; May, 597-744; June, 745-890.

Cellular surfaces and substrates, molecular forces governing tight contact between (Parsegian), 838
Cement(s), effect of temperature on compressive and tensile strengths of (Mesu), 59
excess, removal of, from cast restorations (Jones) (Tips), 585
glass-ionomer, marginal adaptation of (Fuks et al), 356
Cementation, drying post preparation canals prior to (Cameron) (Tips), 586
effects of preparation relief and flow channels on seating full coverage castings during (Webb et al), 777
evaluation of marginal adaptation of extracoronal restorations during (Pascoe), 657
utilization of elastomeric materials to evaluate accuracy of cast restorations prior to (Rissin and Wetreich) (Tips), 585
Centric occlusion, assessment of condylar position in: Internal derangements of temporomandibular joint (Katzberg et al), 250
Ceramic(s) crown, shrink-free (Sozio and Riley), 182
versus ceramometal: Comparative study in dogs (Riley et al), 766
in crown-and-sleeve coping prosthesis, conversion alternative to (Kunisch and Dodd), 581
Ceramometal restorations, adapting, to existing removable partial dentures (Schneider), 279
versus shrink-free ceramic crown: Comparative study in dogs (Riley et al), 766
Characterization, facial, of anterior artificial teeth (Donahue), 577
Chemotherapy, cancer, use of interim protective prosthesis during (DePaola), 527
Chlorhexidine or tannic acid, iron discoloration of acrylic resin exposed to: Model study (Nordbö et al), 126
Chroma sensitivity to porcelain pigments, assessment of (O'Brien et al), 63
Circumferential, cast, and wire clasps for obturator retention (King and Martin), 799
clasps, cast, and wrought wire, comparison of flexibility of (Frank et al), 471
Clamp to support maxillary section of adjustable articulators (Kidd and Ralph), 135
Clasp(s), cast circumferential and wire, for obturator retention (King and Martin), 799
wrought wire, comparison of flexibility of (Frank et al), 471
fractured, chairside replacement of, for removable partial denture (Lu), 282
RPA, design for distal-extension removable partial dentures (Eliason), 25
Class I removable partial dentures, maxillary, and maxillary immediate dentures, sectional impression for (Beaumont), 438
Clinical dentistry, introduction to osseointegration in (Zarb), 824
Commissure, oral, electrical burns of (Reisberg et al), 71
Complete denture(s) and impaired natural dentition, impact of, on masticatory performance and food choice in healthy aging men (Wayler and Chauncey), 427
as radiation carrier, use of (Herring and Greene), 803
cast, maxillary, posterior palatal seal location and preparation on (Calomeni et al), 628
contemporary review of factors involved in. Part II: Stability (Jacobson and Krol), 165; Part III: Support (Jacobson and Krol), 306
retention, stability, and support, contemporary review of factors involved in. Part I: Retention (Jacobson and Krol), 5
interim denture, converting removable partial denture to (Abbott and Wongthai), 852
Composite and microfilled resin, staining of, with stannous fluoride (Cooley and Barkmeier), 346
resin(s) core technique, simplified (Breitbart) (Tips), 862
influence of shelf life and storage conditions on some properties of (de Lange et al), 349
polished microfilled, determining smoothness of (Reinhardt et al), 485
Composite—cont'd
restorations, protective effect of polystyrene liners for (Brännström et al), 331
slides, construction of (Schmitt and Huff), 849
Compressive and tensile strengths of cements, effect of temperature on (Mesu), 59
Condylar displacement, posterior: Prosthetic therapy (Gilboe), 549
long axis, anatomic and statistical study to determine inclination of (Preti et al), 572
position in centric occlusion, assessment of: Internal derangements of temporomandibular joint (Katzberg et al), 250
Condyle position, stress, and occlusion, role of, in TMJ dysfunction-pain (Weinberg), 532
Connector, locking rod and tube (Bryant and Faucher), 647
Contact, tight, between cellular surfaces and substrates, molecular forces governing (Parsegian), 838
Contamination, cross-, in immediate denture treatment, avoiding (Radue et al), 576
microbial cross-, gypsum casts as potential source of (Leung and Schonfeld), 210
Contour, overdenture abutment tooth, influence of, on periodontium: Preliminary report (Graser and Caton), 173
Coping, acrylic resin, use of, to align fixed partial denture abutment preparations (Christensen and Whitsitt) (Tips), 587
Copper band impressions, secondary softening of modeling compound for (Modica and Mainoldi), 361
Core-dowel, cast, technique for multirooted teeth with divergent canals (Ziebert and Johnson), 207
technique, simplified composite resin (Breitbart) (Tips), 862
Correction, occlusal, remount casts for (Khan and Morris) (Tips), 445
Craniomandibular disorders and headaches (Kemper and Okeson), 702
(TMJ) disorders—State of the art. Part II: Accepted diagnostic and treatment modalities (McNeill), 393
transcranial radiographs in evaluation of (Van Sickels et al), 244
Cross-contamination in immediate denture treatment, avoiding (Radue et al), 576
microbial, gypsum casts as potential source of (Leung and Schonfeld), 210
Crown(s)-and-sleeve coping prosthesis, conversion alternative to ceramics in (Kunisch and Dodd), 581
castings, mathematical treatise on fit of (Grajower and Lewinstein), 663
margins, effect of impression-die systems on (Plekavich and Joncas), 772
posts, various permanent, evaluation of retentive properties of (Kurer), 633
shrink-free ceramic (Sozio and Riley), 182
versus ceramometal: Comparative study in dogs (Riley et al), 766
three-quarter, Part II: Influence of preparation features on retention and resistance (Kishimoto et al), 188
Curriculum, dental, occlusion in: 1980-1981 (Esposito et al), 419
Custom ocular prosthesis with dilating pupil (Cain et al), 795
Cyanoacrylates, effects of, on die stone (Ghahremannezhad et al), 639

D

Defects, ocular and orbital, surgical considerations in prosthetic treatment of (Parr et al), 379
Dense apatite ceramic (DAC) implant systems: Preliminary report (Denissen et al), 229
Denserts, tandem, and single inserts—Review of concepts and techniques: Intramucosal implants (Evasic), 695
Dental curriculum, occlusion in: 1980-1981 (Esposito et al), 419
patients, geriatric, commonsense dietary recommendations for (Wical), 162

Dental—cont'd
stone(s), accelerated setting of (von Fraunhofer and Spiers), 859
compatibility of irreversible hydrocolloid impression materials with (Carlyle), 434
Dentistry, clinical, introduction to osseointegration in (Zarb), 824
simplified restorative, double arch impressions for (Wilson and Werrin), 198
Dentition, impaired natural, and complete dentures, impact of, on masticatory performance and food choice in healthy aging men (Wayler and Chauncey), 427
Denture(s), acoustic study of vowels produced with and without: Active versus passive adaptation (Tobey and Finger), 314
and denture-soaking containers of myelosuppressed cancer patients, isolation of pathogenic microorganisms from (DePaola and Minah), 20
bases, rigid, stable, maxillary (Samant and Martin), 731
cast, maxillary complete, posterior palatal seal location and preparation on (Calomeni et al), 628
complete, and impaired natural dentition, impact of, on masticatory performance and food choice in healthy aging men (Wayler and Chauncey), 427
as radiation carrier, use of (Herring and Greene), 803
contemporary review of factors involved in. Part II: Stability (Jacobson and Krol), 165; Part III: Support (Jacobson and Krol), 306
interim, converting removable partial denture to (Abbott and Wongthai), 852
retention, stability, and support, contemporary review of factors involved in. Part I: Retention (Jacobson and Krol), 5
distal-extension removable partial, objective criteria for relining: Preliminary report (Grady), 178
RPA clasp design for (Eliason), 25
existing removable partial, adapting ceramometal restorations to (Schneider), 279
fixed partial, abutment preparations, use of acrylic resin coping to align (Christensen and Whitsitt) (Tips), 587
made as one-piece castings, spatial changes occurring in (Garlapo et al), 781
hydroxylapatite, patient, prosthodontic management of: Preliminary report (Larsen et al), 461
immediate acid-etched provisional fixed partial (Glickman) (Tips), 137
surgical template fabrication for (Farmer), 579
maxillary Class I removable partial, and maxillary immediate dentures, sectional impression for (Beaumont), 438
immediate, and maxillary Class I removable partial dentures, sectional impression for (Beaumont), 438
patient's existing, diagnostic procedures using (Sprigg), 153
removable partial, chairside replacement of fractured clasp for (Lu), 282
converting, to complete interim denture (Abbott and Wongthai), 852
soldering of (Brudvik and Nicholls), 762
survey: Clinical practice today (Cotmore et al), 321
-soaking containers and dentures of myelosuppressed cancer patients, isolation of pathogenic microorganisms from (DePaola and Minah), 20
stability for partial mandibular resection patients (Chaney), 77
treatment, immediate, avoiding cross-contamination in (Radue et al), 576
Derangements, internal, of temporomandibular joint: Assessment of condylar position in centric occlusion (Katzberg et al), 250
Fact or fiction? (Dolwick et al), 415
Design(s), hygienic, of fixed restorations, evaluation of (Appleton) (Tips), 290
restorative, concept for, Part I: Management of endodontically treated tooth (Goerig and Mueninghoff), 340
Detail, surface, of casts, effect on, when irreversible hydrocolloid was wetted before impression making (Morris et al), 328
Diagnostic procedures using patient's existing dentures (Sprigg), 153
Die-impression systems, effect of, on crown margins (Plekavich and Joncas), 772

Dietary recommendations, commonsense, for geriatric dental patients (Wical), 162
Dilating pupil, custom ocular prosthesis with (Cain et al), 795
Disclosing wax, fitting pontics to edentulous ridge with aid of (Kaiser), 733
Discoloration, iron, of acrylic resin exposed to chlorhexidine or tannic acid: Model study (Nordbö et al), 126
Disk, anterior, displacement, effects of angle of articular eminence on (Atkinson and Bates), 554
Displacement, anterior disk, effects of angle of articular eminence on (Atkinson and Bates), 554
posterior condylar: Prosthetic therapy (Gilboe), 549
Distal-extension removable partial dentures, objective criteria for relining: Preliminary report (Grady), 178
RPA clasp design for (Eliason), 25
Dogs, comparative study in: Shrink-free ceramic crown versus ceramometal (Riley et al), 766
Double arch impressions for simplified restorative dentistry (Wilson and Werrin), 198
Dowel(s)-core, cast, technique for multirooted teeth with divergent canals (Ziebert and Johnson), 207
prefabricated: Literature review (Deutsch et al), 498
Drying post preparation canals prior to cementation (Cameron) (Tips), 586
Dysfunction, mandibular, and headache, 2½-year follow-up of changes in, after stomatognathic treatment (Magnusson and Carlsson), 398
occlusal adjustment in patients with residual or recurrent signs of (Magnusson and Carlsson), 706
-pain, nonorganic TMJ, common denominator for: Stress (Fearon and Serwatka), 805
temporomandibular joint, long-term results of treatment for (Mejersjö and Carlsson), 809
role of stress, occlusion, and condyle position in (Weinberg), 532
Dysgnathogenic distress syndrome (Dufour), 403

E

Edentulous mandible(s), atrophic, autogenous bone grafts for: Review of twenty patients (Curtis and Ware), 212
resorption of, after vestibuloplasty with skin grafting (Landesman et al), 619
milieu (Zarb), 825
ridge, fitting pontics to, with aid of disclosing wax (Kaiser), 733
Elastomeric impression materials, ten, tear strength of (Sneed et al), 511
materials, utilization of, to evaluate accuracy of cast restorations prior to cementation (Rissin and Wetreich) (Tips), 585
Electrical burns of oral commissure (Reisberg et al), 71
Electromyographic activity of temporal and masseter muscles, its effect on: Anterior guidance (Williamson and Lundquist), 816
study of mandibular position in response to changes in body position (Hairston and Blanton), 271
Electromyography, masticatory, phonetics, and transcutaneous electrical stimulation, comparison of mandibular rest positions induced by (Wessberg et al), 100
Enamel cavosurface bevels finished with ultraspeed instruments (Barkmeier et al), 481
Endodontic posts, cast-gold, angulation loading effects on: Photoelastic stress analysis (Mattison and von Fraunhofer), 636

Endodontically treated tooth (teeth), management of. Part I: Concept for restorative designs (Goerig and Mueninghoff), 340; Part II: Technique (Goerig and Mueninghoff), 491
Masserann technique for removal of fractured posts in (Williams and Bjorndal), 46
prosthodontic use of: Theory and biomechanics of post preparation (DeSort), 203
Etched, acid-, provisional fixed partial denture, immediate (Glickman) (Tips), 137
Etch-on fixed prostheses, precementation stabilization of (Lorton and DeNucci) (Tips), 735
Exhaled mercury following removal and insertion of amalgam restorations (Reinhardt et al), 652
Expansion, investment setting, and casting size, three factors affecting (Lacy et al), 52
Extracoronal restorations during cementation, evaluation of marginal adaptation of (Pascoe), 657

F

Face-bow, comparison of universal mounting jig to (Yanus et al), 623
Facial characterization of anterior artificial teeth (Donahue), 577
prostheses, mechanically retained: Helpful or harmful? (Udagama and King), 85
structures, plastinated, prosthetic use of: Feasibility study (Patel et al), 529
Feeding attachment, intraoral nighttime, for patients with glycogen storage disease, types I and III (LaVelle and Rhead), 687
Final impressions, work simplification in boxing (Tautin), 856
Fit of crown castings, mathematical treatise on (Grajower and Lewinstein), 663
Fixed partial denture(s) abutment preparations, use of acrylic resin coping to align (Christensen and Whitsitt) (Tips), 587
immediate acid-etched provisional (Glickman) (Tips), 137
made as one-piece castings, spatial changes occurring in (Garlapo et al), 781
prostheses, etch-on, precementation stabilization of (Lorton and DeNucci) (Tips), 735
prosthodontics, nonprecious alloys for use in: Literature review (Kelly and Rose), 363
restorations, evaluation of hygienic design of (Appleton) (Tips), 290
Flexibility of wrought wire and cast circumferential clasps, comparison of (Frank et al), 471
Flow channels and preparation relief, effects of, on seating full coverage castings during cementation (Webb et al), 777
Food choice and masticatory performance in healthy aging men, impact of complete dentures and impaired natural dentition on (Wayler and Chauncey), 427
Forces, molecular, governing tight contact between cellular surfaces and substrates (Parsegian), 838
Fractured clasp, chairside replacement of, for removable partial denture (Lu), 282
posts in endodontically treated teeth, Masserann technique for removal of (Williams and Bjorndal), 46
Full coverage castings, effects of preparation relief and flow channels on seating, during cementation (Webb et al), 777
Functional occlusal registrations, fabrication of recording rim for (Cacciali et al), 793

G

Gagging problem in prosthodontic treatment. Part I: Description and causes (Conny and Tedesco), 601; Part II: Patient management (Conny and Tedesco), 757
Geriatric dental patients, commonsense dietary recommendations for (Wical), 162
population, current and future considerations for (Wescott), 113
Glass-ionomer cements, marginal adaptation of (Fuks et al), 356
Glycogen storage disease, types I and III, intraoral nighttime feeding attachment for patients with (LaVelle and Rhead), 687
Gold, cast-, endodontic posts, angulation loading effects on: Photoelastic stress analysis (Mattison and von Fraunhofer), 636

template fabrication for immediate dentures (Farmer), 579
Survey, removable partial denture: Clinical practice today (Cotmore et al), 321
table, modified, for mounted casts (Schmitt et al) (Tips), 861
Syndrome, dysgnathogenic distress (Dufour), 403

T

Tannic acid or chlorhexidine, iron discoloration of acrylic resin exposed to: Model study (Nordbö et al), 126
Taste acuity thresholds, palatal receptor contribution to and effects of palatal alteration on (Hammond et al), 121
Tear strength of ten elastomeric impression materials (Sneed et al), 511
Temperature, effect of, on compressive and tensile strengths of cements (Mesu), 59
Template, surgical, fabrication, for immediate dentures (Farmer), 579
Temporal and masseter muscles, its effect on electromyographic activity of: Anterior guidance (Williamson and Lundquist), 816
Temporomandibular joint, abnormal, radiographic examination of (Goldman and Taylor), 711
internal derangements of: Assessment of condylar position in centric occlusion (Katzberg et al), 250
Fact or fiction? (Dolwick et al), 415
laminagraphy, accuracy and repeatability of new procedure for (Preti et al), 715
pain-dysfunction, long-term results of treatment for (Mejersjö and Carlsson), 809
syndrome, clinical evaluation of two hundred patients with (Gelb and Bernstein), 234
therapy, physical therapy as adjunct to (Danzig and Van Dyke), 96
Tensile and compressive strengths of cements, effect of temperature on (Mesu), 59
Therapy, definitive radiation, for head and neck malignancies, osteoradionecrosis associated with (Fleming), 675
head and neck radiation, complications of, and their management (Engelmeier and King), 514
physical, as adjunct to temporomandibular joint therapy (Danzig and Van Dyke), 96
prosthetic: Posterior condylar displacement (Gilboe), 549
temporomandibular joint, physical therapy as adjunct to (Danzig and Van Dyke), 96
Three-quarter crowns, Part II: Influence of preparation features on retention and resistance (Kishimoto et al), 188
Titanium implants, biocompatibility of: Surface science aspects (Kasemo), 832
TMJ dysfunction-pain, role of stress, occlusion, and condyle position in (Weinberg), 532
pain-dysfunction, nonorganic, common denominator for: Stress (Fearon and Serwatka), 805
Tongue-shielding radiation stent (Fleming and Rambach), 389
Tooth (teeth), abutment, movement, effect of splinting on (Aydinlik et al), 477
anterior artificial, facial characterization of (Donahue), 577
contour, overdenture abutment, influence of, on periodontium: Preliminary report (Graser and Caton), 173
endodontically treated, management of. Part I: Concept for restorative designs (Goerig and Mueninghoff), 340; Part II: Technique (Goerig and Mueninghoff), 491
Masserann technique for removal of fractured posts in (Williams and Bjorndal), 46
prosthodontic use of: Theory and biomechanics of post preparation (DeSort), 203
multirooted, with divergent canals, cast dowel-core technique for (Ziebert and Johnson), 207
selection, impression making, and setup: Versatile wax rim handle (McCartney), 442
with nonvital pulps, retention of posts in (Wood), 504
Transcranial radiographs in evaluation of craniomandibular (TMJ) disorders (Van Sickels et al), 244
Transcutaneous electrical stimulation, phonetics, and masticatory electromyography, comparison of mandibular rest positions induced by (Wessberg et al), 100
Transmucosal implants of dense hydroxylapatite (de Putter et al), 87
Tube and rod connector, locking (Bryant and Faucher), 647

U

Ultraspeed instruments, enamel cavosurface bevels finished with (Barkmeier et al), 481

Universal mounting jig, comparison of, to face-bow (Yanus et al), 623

V

Vertical dimension of occlusion, comparative study of changes in, using different investing mediums (Dukes et al), 568
Vestibuloplasty with skin grafting, resorption of edentulous mandible after (Landesman et al), 619
Vowels produced with and without dentures, acoustic study of: Active versus passive adaptation (Tobey and Finger), 314

W

Wax, disclosing, fitting pontics to edentulous ridge with aid of (Kaiser), 733
Wax—cont'd
rim handle, versatile: Impression making, tooth selection, and setup (McCartney), 442
Wear and retention of precision-type attachments (Stewart and Edwards), 28
Wire and cast circumferential clasps for obturator retention (King and Martin), 799
wrought, and cast circumferential clasps, comparison of flexibility of (Frank et al), 471
Wrought wire and cast circumferential clasps, comparison of flexibility of (Frank et al), 471
